

Title 440 - Conservation Programs Manual
Wetlands Reserve Program

Exhibit 514.69b

Mr. John D. Smith
Address One
City, State Zip Code

Dear Mr. Smith,

We wish to thank you for your cooperation this past year in preserving wetlands on your lands through the conservation easement. Mississippi landowners, like yourself, are preserving over 50,000 acres through conservation easements.

As you may realize, the value of these natural wetlands increases yearly, not only for wildlife purposes, but for other equally important reasons such as run-off collection, nutrient entrapment, and water table retention.

We value your participation in the easement program and look forward to your continued support and cooperation for this perpetual easement. If we can be of assistance to you, please do not hesitate to call on us at the address above or by telephone at xxx-xxx-xxxx.

Sincerely,

/s/

NRCS Representative
